General Summary.

2. The total trade of the Port of Aden for the year under review shows an increase of £904,685 the total being even higher than last year's record figures.

Merchandise increased by £1,325,132, but Treasure decreased by £420,447.

3. Foreign trade increased from £6,251,717 to £6,939,133; Indian trade from £1,607,096 to £1,792,817, and Land trade from £394,001 to £425,549. Foreign trade increased in Merchandise, but decreased in Treasure, in both Imports and Exports. Indian trade increased in Imports, Merchandise and Treasure, but decreased in both, in Exports.

Land trade increased by £31,548 in Imports and Exports, in both Merchandise and Treasure.

4. Government Stores and Treasure amounted to £69,115 as against £37,580 the year previous showing an increase of £31,535. Particulars for the past five years are given in paragraph 32.

5. The Trade of Aden is divided into three main divisions—Foreign, Indian and Land. Paragraphs 24 to 26 deal especially with the North-East African Trade, which is included under Foreign Trade.

6. The principal increases in the general trade were in Cotton Manufactures and Twist, Coffee, Tobacco Unmanufactured, Grain and Pulse, Hides and Skins, Oil Kerosine, Dates and Ghee, Salt,

Seeds, Shells Mother-of-Pearl, Spices and Sugar. The chief items showing decreases were—Coal, Ivory Unmanufactured, Wax, and Pearls.

Cotton piece-goods increased very largely in *Greys*, *Whites* and *Dyed*, but especially in *Greys* from the United States of America. The imports from Italy, Austria and Belgium, which were very considerable in 1910-11, were reduced to insignificance during the year under review. There was a large increase of *Coffee* in imports as well as exports. The consignments from the Red Sea Ports were sent to Europe *via* Aden, owing to the Italian blockade of Hodeida, etc. For the same reason *Grain and Pulse*, which increased largely last year, shows a further increase, as direct shipments from India to the Red Sea Ports were cut off. There was a small decrease in *Rice*, but *Joowari* and especially *Wheat Flour* increased to a great extent. *Tobacco Unmanufactured*, which decreased in imports, from Turkey in Asia, owing to the trouble in the Balkans, and rather largely from Bombay, increased in exports, chiefly to the Red Sea Ports, Mocha, etc. *Hides Raw* show a decided improvement on last years' figures, but the trade is being diverted by direct shipments which are made from Djibouti to Europe, and it may soon be expected, from the Benadir Coast also. *Skins Raw* decreased in imports but increased slightly in exports. Arrivals from the Red Sea and Arabian Gulf Ports nearly doubled, but imports from the African coast ports fell off, owing partly to direct shipments from Djibouti, and partly to the disturbed state of Somaliland. *Oil Kerosine*, shows a large increase in imports as well as exports; American Oil decreased in quantity in imports, but increased in value, prices having risen during the year. There was also a consignment from Sumatra, during the year. *Dates* increased, mainly from Turkey in Asia, and though the imports from Persia show a decrease, compared with 1911-12, they were considerable. *Ghee* increased from African ports, but decreased from Bombay which also showed a decrease last year. In exports consignments, increased to the African ports, and especially to the Red Sea Ports and Arabian Gulf Ports, but the figures for the Straits Settlements and Java show a falling off. *Salt* shows a large increase in quantity and value, due to the greater demands of the Calcutta market and also to the opening of new markets in Java and the Straits Settlements, which took nearly 29,000 tons. *Seeds* increased, chiefly in Jinjelli, the principal item. Imports from Zanzibar nearly doubled, and there was a large increase from Bombay, but Mocha imports fell off a good bit. *Shells, Mother of Pearl* increased slightly, owing to larger imports from the Somali coast and Arabian Gulf Ports. Imports from Mossawah decreased. *Spices* increased largely in imports and exports, specially in *Ginger*, *Chillies* and *Pepper*. *Sugar.*—Prices of Austrian Sugar being low during 1912, large quantities were brought into Aden, and the import from there exceeded even that of 1910-11. Java Sugar was comparatively dearer, and no imports were made from that quarter. There was a large increase from Bombay. Very large shipments were made to the Red Sea Ports, Mocha and Gaizan especially. Among the few items which showed a decrease during the year, was *Coal*, imports of which fell off owing to the Coal Strike, and also to imports of Japan and Natal Coal, which totalled about 9,000 tons. *Ivory Unmanufactured* also decreased in both imports and exports. The chief source of supply is Djibouti and imports from there have been decreasing yearly, owing to direct shipments to Europe from that port. The same remarks may be equally applied to *Wax* which also decreased in imports and exports. The decrease in *Pearls* was due to less imports from Hodeida, chiefly; imports from Mossawah also decreased.

7. Particulars connected with the fluctuations in the value and quantity of the various articles imported are set forth in paragraphs 12 to 15 and of articles exported, in paragraphs 16 to 21. The Land trade with the interior of Arabia is dealt with in paragraphs 27 to 30 and transhipment trade in paragraph 31.

Imports.—Class I shows the largest increase, due to Coffee, Grain and Pulse, Provisions (Dates and Ghee), Spices and Sugar. Class II declined slightly, owing to the decreases in Coal, Skins Raw, Ivory,

Unmanufactured, and Wax. This class includes all the principal articles of decrease during the year. Class III increased chiefly in Cotton piece-goods (the increase in Greys alone, being £133,917). Apparel, Drugs and Medicines and Dyeing and Tanning Materials. The increase in Class IV is due to Animals, living, Fodder, etc., Mother of Pearl Shells, and Articles per Post. In this class Pearls showed a large decrease. Treasure exhibits a very large decrease compared with the inflated figures of the year previous, but the total imports were not much below the average.

Exports.—Aden being, more or less, simply a distributing centre of trade, the imports are reflected in the movements of the exports. The large increase in class I is due, as in imports, to Coffee, Grain and Pulse, Provisions, Sugar, Spices and Salt. Class II shows an increase mainly due to Hides and Skins Raw, Cotton Twist and Yarn, and Oils. Decreases in this class were noticed in Ivory, Gums and Resins, Wax, and Pearls. Class III increased chiefly in Cotton piece-goods, Chemicals, Drugs and Medicines, Dyeing and Tanning Materials, and Metals. There was a decrease in Class IV, due to Animals living, Pearls, and Fodder, etc.

Imports.

12. The principal features of the import trade of the year under review are noted below :—

I.—Articles of Food, Drink and Tobacco.

The total value of this class increased from £1,108·78 to £1,492·18 or by £383·40 (£383,400).

Coffee increased in quantity by 30,209 cwt. and in value by £106,101. This large increase was chiefly due to imports from Mocha and adjacent ports. Owing to the Turco-Italian War, shipments were made *vid* Aden and not direct. Imports from Mossawah and Djibouti also increased, and there was a large increase of Singapore coffee berries from Singapore and also from Java.

Grain and Pulse.—The quantity here increased by 127,397 cwt. and the value £87,641.

Jowari.—The usual imports from the Red Sea Ports, of course, almost ceased, but this was more than counterbalanced by the imports from Bombay, which increased in quantity from 149,391 cwt. to 246,357 cwt.

Rice shows a decrease of 43,537 cwt. due to less imports from Calcutta and also from Karáchi; arrivals from Bombay increased.

Wheat Flour.—The increase under this head was over 10 million pounds in quantity and £58,581 in value. The chief source being Bombay; Karáchi, Austria and Russia in Europe also increased their supplies. *Gram* showed a slight increase, but *Pulse, Wheat* and *Grain Other Sorts* decreased. Normal figures may again be expected next year, as direct shipments will be carried on as usual.

There was a slight decrease in quantity and value, due to less imports of Ale, Beer, etc., from the United Kingdom. Spirits and Wines both show increases.

Dates.—The following statement shows the imports of Dates for the past five years :—

Dates.

The increase in Dates amounted to 48,203 cwt. in quantity and £27,190 in value, the largest increase being from Turkey in Asia. Persian imports decreased somewhat, but were far above the normal, owing to the war which prevented direct shipments to Hodeida. The yield of Bussorah Dates was less than last year, but prices and demand were better in Aden than in India, which also contributed to the increase.

Ghee increased in quantity by 137,900 lbs. and in value by £5,598. The largest quantity comes from British Somaliland, which increased considerably. Imports from other African ports also increased, but Bombay and Cutch arrivals have been declining for the past three years.

Spices increased in quantity by 15,675 cwt. and in value by £26,071. Cassia, Chillies, Cinnamon, Ginger and Pepper all show substantial increases, but there was a large decrease in Cloves. The imports of Ginger were almost twice those of last year.

Tea increased by 9,217 lbs. in quantity and by £1,378 in value. Imports from Calcutta were larger, but the quantity from Bombay and Ceylon decreased.

Sugar.

The following statement shows the quantity and value and sources of supply of the imports of Sugar for the past five years :—

Sugar.—There was a very large increase in quantity of 153,810 cwt. and in value of £122,149. The low prices ruling for Austrian Sugar during 1912 induced importers to purchase considerable quantities, and as no *direct* shipments were made to the Red Sea Ports, shipments were made *vid* Aden. There were no imports from Java, but India, China, etc., all show increases.

Fruits and Vegetables Fresh.—Fruits fresh increased slightly from £3,236 to £3,501. *Vegetables* decreased from £7,326 to £7,298.

Tobacco.—Tobacco Unmanufactured decreased in quantity by 1,251,607 lbs. and in value by £2,977. There was a large decrease from Bombay due to bad crops and smaller decreases from Russia in Europe and Turkey in Asia. Imports from the Arabian Gulf Ports and Egypt increased to a great extent.

Tobacco Manufactured.—Cigarettes increased from £1,049 to £1,330; *Cigars* from £884 to £1,063, but *Other Manufactures* decreased from £3,525 to £2,816.

II.—Raw Materials and Produce and Articles mainly Unmanufactured.

13. The total value of this class decreased from £1,064·94 to £1,053·07 or by £11·87.

Coal.—In the following statement the imports from the United Kingdom are compared with those of other countries for the past five years: —

Under this head there is a decrease of 30,280 tons and in value £31,496 due to less imports from the United Kingdom, which were, however, well up to the average. The same remarks may be applied to the imports of Bengal Coal, which were higher than any year in the quinquennial period, except the last. New imports of Japan and Natal Coal totalled about 9,000 tons.

Gums and Resins increased in quantity by 4,045 cwt. but decreased in value by £2,559. *Gum Arabic* increased in imports from all sources except the Red Sea Ports, but the price in Europe declined by over 40 per cent. which accounts for the decrease in value. *Gum Benjamin* increased largely from the Straits Settlements, the chief source of supply. *Gum Incense* shows a decrease, chiefly from the Independent Somali Ports, and *Gum Other Sorts* also show a slight decrease.

Hides and Skins.—Hides, Raw.—The following statement shows the imports of Hides for the past five years :—

Hides, Raw.

Hides increased in weight by 6,362 cwt. and in number by 63,626 and in value by £38,381. The imports from Djibouti decreased, owing to the direct shipments made to Europe, etc., from that port, but there were large increases from British Somaliland, Italian East Africa and from Mocha and adjacent ports. The extraordinary demand for Hides and the high prices ruling account for the large increase. Imports from Djibouti have been gradually declining, and if direct shipments are to be made from the Benadir Coast as well, as is expected, a large decrease in this trade might be anticipated.

In the following statement the chief sources of imports of Skins Raw are shown for the past five years :—

Skins, Raw.

A decrease is seen under this head of 6,417 cwt., 817,858 in number and in value £24,192. The decreases were chiefly in imports from Djibouti, British Somaliland, Independent Somali Ports and Italian East Africa. Arrivals from the Arabian Gulf Ports and Red Sea Ports nearly doubled. The decreases from the African ports may be attributed to the disturbed state of Somaliland and Abyssinnia, and the direct shipments made from some ports. The large increase from the Red Sea Ports is due to shipments being made *viâ* Aden during the Turco-Italian war, instead of direct as usual.

Oils increased in value by £12,054, chiefly due to Oil Kerosine and Jinjelli. There was a very large increase in the latter from Bombay ; arrivals from Mocha fell off. There were slight increases in Animal Oil, Essential, Lubricating and Linseed Oils. Cocoanut Oil showed a decrease. *Oil Kerosine* increased by 106,528 gallons in quantity and in value by £3,792. The imports from the United States of America decreased somewhat in quantity but increased in value, prices having risen during the year. Over 110,000 gallons Sumatra Oil were imported during the year as shown in the following statement :—

The total Sea-Borne trade amounted to £7,531·42 (7,531,420) excluding Treasure. There is no difference in the relative positions of the countries compared with last year. The British Empire appropriated £2,811·14, India's share of which was £1,334·38. Africa comes next with a total of £1,514·14, followed closely by Asia with £1,483·50. The United States of America with a total of £911·68 is still ahead of Europe whose total amounted to £810·96.

British Empire.—The total increase in trade was £349·48 but the percentage decreased by 2·15. The increase in the *United Kingdom* was especially in exports; *British Somaliland* increased in imports and exports, and *India* increased largely in imports in Grain and Flour chiefly, but decreased in exports. The Italian blockade in the Red Sea had much to do with the increase in imports and exports, direct shipments from India and to Europe being temporarily cut off.

Continental Europe increased in the total value by £212·80 and by 1·17 in percentage. This large increase was principally due to the abnormal imports of Sugar from *Austria*, and the larger shipments of Skins, Hides, Coffee, etc., which were sent *viâ* Aden to European markets.

Africa shows an increase of £181·27 in the total trade but the percentage decreased by 1·28. Imports increased from £631·01 to £653·69, chiefly in Tobacco from Egypt and Hides from Italian East Africa. The decrease observed in Djibouti is due to less imports of Hides and Skins, Ivory and Wax, and the decrease in *Mossawah* to Pearls and Wax. The exports increased from £701·86 to £860·45, the largest increases being seen in Egypt and Djibouti, the chief decrease being in exports to Italian East Africa. There was a general increase in exports, in the Chief articles shipped to these ports. Cotton Twist and Piece-goods, Tobacco, Grain and Pulse, Oil Kerosine, Spices and Sugar.

Asia.—The total trade with Asiatic ports increased largely from £1,039·21 to £1,483·50 or by £444·29. Imports increased by £124·88 and exports by £319·41. The increase is chiefly due to imports from, and shipments to the Arabian Gulf and Red Sea Ports, direct shipments not being made for a great part of the year.

America increased by £108·59 in the total trade, but the percentage decreased from 12·87 to 12·10. Imports increased by £130·84 in Grey piece-goods and Kerosine Oil, the latter commodity decreased slightly in quantity. Exports decreased by £22·25 in Goat and Sheep Skins Raw and Ivory Unmanufactured.
